CONCERNING the stringent Bill passed by the United States restricting Chinese immigration a correspondent well entitled to judge states :- It will be interesting to see whether the Chinese Minister at Washington will carry out his threat to haul down his flag. The present Bill is only the logical outcome of the exceedingly finjudicious action of Chang Ta-jen, the redecessor of the present Minister at Washington, Won will remember that he entered into a convention with the United States, giving the American Government power to do what they have now done. It was the news that the Chinese Minister Chang had consented to do this which encouraged the Australian Government to enact the severe laws against Chinese which led to the Chinese immigrants on board the Afghan and other vessels being sent back from Sydney to Hongkong some years ago, and which have practically shut the door against the admission of Chinese into our Australian Colonies ever since. The Tsung-li Yamen naturally refused to ratify the convention, a convention for which the Chinese negotiating deserved to be impeached; but, all the same. China is now being made to suffer as if the ratification had taken place. - L. & C. Express.

THE following puragraph from the London and China Express of May 13, gives still further evidences of the extraordinary versions of the Lo Hok-pang defalcations which have been circulated :- There has i been another scare during the week concerning the shares of the Hongkong and Shanghai Bank, which however has had little or no influence on the price of the shares. It was occasioned by a statement made on the authority of Dalziel's Agency which telegraphed from Vancouver that the bank had lost the alarming sum of over \$18,000,0 0. How these figures were obtained we cannot see except that, as pointed out in our last issue, this figure corresponds with the estimated depreciation which has taken place of late in the an unqualified success, and the gentlemen value of all securities locally quoted at Hongkong, amongst which, of course, the Hongkong and Shanghai Bank shares figure for something, but which has absolutely nothing to do with losses made by the bank. These losses have been caused by the defalcations of the compradore, which according to a telegram of 5th inst. received by the London office are estimated at the extreme of one million two hundred thousand dollars, equal at exchange of 2s. 10d. to £170,000 (one hundred and seventy thousand pounds), or tulations of the legal profession. There and plets. £1/0,000 more than the first estimate. This is we believe the outside figure and it is possible that from this something will Attorney-General, Mr J. J. The draft bill submitted on behalf of the wharf-owners, as an alternative measure to that brought before the Legislative Council, re compensation in respect of wherves and piers along the line of the Praya Reclamation, seems to have been misunderstood in one important point at east by the learned Attorney General, judging by the remarks he made with regard to it in the Legislative Council. He observed that he 'could hardly conceive an floodgates of litigation, than the draft ordiannee in question'; that observation having particular reference to the provision that appeal might be made by a claimant on the ground that an excessive compensation had been awarded to some other claimant. FOOCHOW NOTES.

An eye-witness reports a huge crowd of boats, laden with tea, anchored just above the rapids, detained by the freshet on the river. With the fine weather of the past two or three days and the subsidence of the water, the addition to the stock of tea next week will be very considerable.

At the commencement of the week the officials offered up prayers to heaven for a cessation of the long-continued rain, and proclaimed a fast. For three days, no piz or other enimal was to be slaughtered. We hear that, on Wednesday, not a pound of flesh of any kind could be purchased in the ma kets in the city or auburbs.

It is rumoured in the city that the present Provincial Judge is to be appointed Arsenal Commissioner. This official appears to stand high in the estimation of the entives; so much so, that they were hoping to hear that he was to be the new Governor General. He is a clever and energetic man, and altogether deserving of the popularity he enjoys.

A Chinese cargo boat, laden with some \$2,000 worth of piece goods, capsized close to the bridge on Wednesday last. No lives were lost. Accidents never occur singly it is said, and certainly this was a case in point. The unfortunate owner of the goods, who has to war the loss twas creditor, to the extent of several thousand dollars, of a native firm lately failed, and gets, we understand, nothing back.

The freshet on the river reported last week was succeeded by another on Monday, and the low-lying country was again looded for two or three days. We only hear of one misfortune, the breaking away to pieces as it was carried down the stream, dustrial and commercial classes of the counbut little in ary was done. Under orders from the Viceroy the different district officials we e propared for the worst; but, as it turned out, the floods were not so serious as anticipated and we do not hear of much

It is conerally thought that there is, amongst the Chinese, an absence sympathy, one towards the other, in times of trouble. Happily there are frequent instances of exceptions to this rule, and we have to record one to-day. A wealthy and benevolent gentleman from Kiangsi, at present resident in Fourhow, issued tickets for a bowl of rice to be given to all these who were thrown out of work through the flooding of the fields, and to others whose houses were inundated. The charity letted occupiers and for the apportionment (if for three days and was very largely availed necessary) of the said sum of \$180,000 of by the poor.
